

Nissan CVT Transmission Service

INSTRUCTIONS

Wear safety goggles to protect your eyes.

Wear gloves to protect your hands.

Wear a long-sleeved shirt to protect your arms.

Performing the Wynn's Transmission service will require the following adaptors:

To perform service:

1. Raise the vehicle.
2. Remove belly shield.
3. On the front of the transmission, locate cooler.

4. Remove the bolts and let the cooler hang out of the way.
5. Attach the adaptor to transmission using three of the factory bolts. (Two bolts on top, one bolt on bottom.)
6. Connect both service hoses and perform the Wynn's Transmission Service.
7. Reverse procedure when the service is complete.
8. Check the fluid level per the OEM procedure.
